

Press Release

Registration for Transport Research Arena 2018 now open

Register now and secure the Early Bird prices. By registering, you will be able to access high level discussions as well as an exhibition with interactive presentations and hands-on experience.

Hosted by the Austrian Ministry for Transport, Innovation and Technology and in cooperation with the European Commission, Europe's largest transport research and technology conference will be held in Vienna, Austria, from 16– 19th April 2018. The 7th edition of this successful European event is supported by European Technology Platforms ERTRAC (European Road Transport Research Advisory Council), ERRAC (European Rail Research Advisory Council), WATERBORNE, ALICE (Alliance for Logistics Innovation through Collaboration), ECTP (European Construction Technology Platform) and ACARE (Advisory Council for Aviation Research and Innovation in Europe) as well as CEDR (Conference of European Directors of Roads) and ETRA (European Transport Research Alliance). This conference, which is organised by the Austrian Institute of Technology and AustriaTech, is now open for registration.

TRA 2018 is THE international transport research and technology conference, addressing representatives from politics, administration, science and research as well as from industry to shape the future of transport and mobility.

Led by the central topic "A digital era for Transport", more than 3,000 participants will discuss new mobility solutions for society, economy and the environment during the four days of the conference. More than 600 scientific and technical presentations will provide extraordinary insights into crucial topics, such as automated driving, decarbonisation, logistics, transport infrastructure and enabling technologies as 5G, IoT and block chains. All modes of transport will be covered as well as legal and organisational framework conditions. A 7,000-square meter international exhibition area will provide exceptional experiences by interactive presentations and demonstrations featuring outstanding solutions to bring transport research to life.

Get your ticket now and benefit from early bird prices

Tickets are available from 480 EUR for all four days of the conference. In addition, one-day tickets, exhibitor tickets and student tickets are offered. Following the final confirmation of their submission, authors, speakers and reviewers will receive specific information and will be able to register at a reduced price. Press representatives will have free access, specific press tours and activities are under preparation. The Early Bird prices are available until 29th January 2018.

Further registration details can be found at <http://www.traconference.eu/registration/>
